GREENFOND  
**16/32** DOUBLE RINSED GRAVEL

RINSED GRAVEL 16/32 FRACTION for use as a drainage layer on ballast roofs and as a filter band on green roofs

RINSED GRAVEL for use as a drainage layer on ballast roofs and as a filter band on green roofs. It is delivered in Big- Bag packs . The product undergoes a double rinsing process to remove unnecessary impurities and maintain reproducible quality.

The difference between gravel rinsed once and twice:

Rinsed once

Rinsed twice
