

TECHNICAL DATA SHEET

GREENFOND SEDUM-GRASS MATT R stonecrop mat

MATERIAL

GREENFOND SEDUM-GRASS MAT comprise four to six different species of sedum, twenty to twenty-five different herbs and five to seven different grasses. The plants grow on a coconut fibre mat and a special substrate. The mats boast at least 95% coverage upon delivery.

GREENFOND vegetation mats are produced in accordance with FLL guidelines.

ABOUT THE VEGETATION

The sebaceous Sedum plants are adept at storing water in their leaves and are therefore extremely suitable for varying weather conditions. A colourful effect is achieved by adding a variety of flowering herbs and grasses to the sedum plants.

INSTALLATION AND MAINTENANCE

GREENFOND SEDUM-GRASS MATT R vegetation mat are very easy to install (download the installation instructions from our website!). Sedum-herb mats can be installed on sloping surfaces of up to 10 degrees. Their (minimum) maintenance depends on the build-up of the system. Fertilise using GREENFOND ULTRA GREEN fertilizer twice a year for the first year, then once a year.
