# GF-T/ABC terrace systems

GREENFOND GF-T / ABC enable quick and trouble-free installation of terrace floors

### GREENFOND GF-T / ABC terrace systems

#### STANDS FOR TERRACES 10 mm "A" P

The stands enable quick and trouble-free installation of elevated floors on flat terrain. The stands can be used for the construction of terrace and balcony surfaces.

#### ADJUSTING THE STAND 12-20 mm "B"

The height adjustment system makes it possible to install the floor in one plane, while ensuring good ventilation. It is possible to adjust the height of the bracket in the range of 12 - 20 mm, height change every 2 mm.

GREENFOND

**GF-T/ABC** terrace systems

## 1mm "C" LEVELING PAD

The leveling pad is used to compensate for slight differences in the level of the ground and production differences in the thickness of the boards. The pad can be cut to compensate for the height of the selected area of the stand.
