GREENFOND

Duo Tape

double-sided tape

GREENFOND Duo Tape layered double-sided adhesive tape, used for permanent flexible connections in the area of high moisture

GREENFOND Duo Tape layered double-sided adhesive tape, extremely durable with very high bonding strength and aging durability.

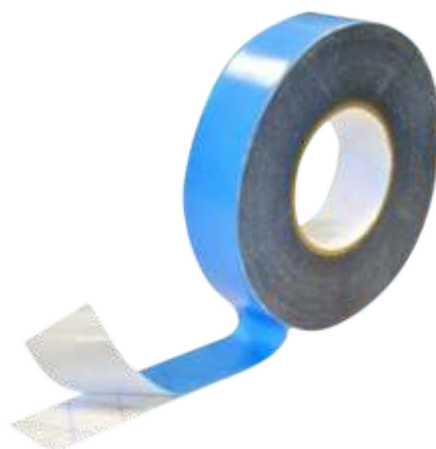

GREENFOND Duo Tape is designed for all kinds of flexible connections in areas of action of increased moisture content. The high weight of the tape guarantees durable and reliable joints, even on very rough surfaces and high resistance to moisture. Particularly good connections are obtained on surfaces such as HDPE polyethylene, PVC and plastics based on geotextiles. The dimension of the tape 20 mm x 50 m allows to obtain high connection strength and facilitates quick and trouble-free assembly on the construction site.

CARRIER:

Silicone blue PP / polypropylene foil.

PRODUCT FEATURES:

- high aging durability
- strong adhesive properties
- layered tape construction

GREENFOND

Duo Tape double-sided tape

TECHNICAL DATA OF THE PRODUCT:

Colour	transparent
Adhesive	Dispersion acrylate
Protective layer	Silicone foil
Weight	450 gr/m ² (+/- 10%)
Number of rolls in a carton	10
Unit packaging weight	9,5 kg
Carrier system	red mesh tape
Shear resistance	100 g/626 mm ² / DIN EN 1943
Assembly temperature	-5 do +30 °C
Temperature range	-30 do +80 °C
Resistance to moisture	Very high
Aging durability	High
Resistance to softeners	High

NAME	ARTICLE NUMBER	MEASURE ROLLS
GREENFOND Duo Tape 25	60.1201	2 cm x 25 mb
GREENFOND Duo Tape 50	60.1202	2 cm x 50 mb
